Magalie R. Salas
Federal Regulatory Commission
888 First St, N.E., Rm1A
Washington, DC 20426

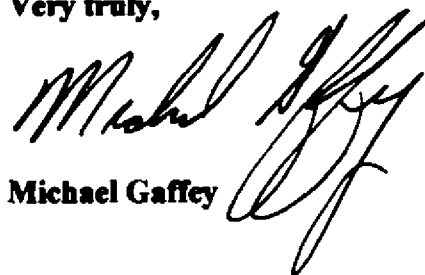

Dear Ms. Salas:

I am writing in regard to the proposed Broadwater Liquid Natural Gas terminal being placed in the middle of the Long Island Sound.

I am strongly against it. The Long Island Sound is a beautiful, tranquil place that would be ruined by placing a Liquid Natural Gas terminal in the middle of the water. I do not want this dangerous, costly, ugly terminal in our waters. I do not want armed security forces in our waters.

I urge you to look into this matter and take appropriate action to stop the Broadwater project.

Very truly,

Michael Gaffey
